

Hospital Diospi Suyana

Dr. Klaus-Dieter & Dr. Martina John

A Christmas Invitation

Dear friends,

since 2004 we have told the Diospi Suyana story 1,450 times. During the presentation in schools, clubs and churches we make it very clear that the Christmas story has a solid foundation. God loves us as individuals and not only can hospitals rise out of nothing

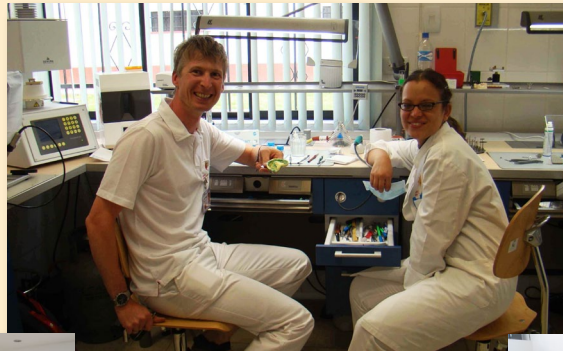

but a solution can be found for the complicated crises of our lives. Again and again we hear that people are entrusting their lives to God because of what they have read of his dealings with Diospi Suyana. The invitation to do so is for everyone, including you.

Yours Martina und Klaus-Dieter John

How did Tibor Minge overcome his fear? A Puppet Show Provided the Answer

For five weeks Tibor Minge set up the dental lab, sorted the materials and installed all the equipment and now since the middle of November the master dental technician has been in a position to produce all and any kind of dentures. Not long ago, Tibor, who is from Oranienburg, shared his story.

Growing up in former East Germany, he was raised an atheist. In the year 2000, his girlfriend left him, taking their daughter with her and he plunged into a deep crisis, paralysed with fear that he would lose everything.

◀ Puppet show during morning devotions with a look behind the scenes ▶

Then he met a young woman at work who radiated a deep peace, the very thing he was looking for. She took him with her to church and Tibor began to wrestle with questions about God. Then during one long night he poured his heart out to God and experienced a peace he had never known before. He recently shared his story in the form of a puppet show – the audience hung onto every word.

Architects Draw Up Plan for School Project Free of Charge

On 21 November two architects set out on a special mission to Curahuasi. Cornelius Linder and his wife Tina from Lauf an der Pegnitz checked out the plot of land where the school is to be built next year. Both already worked

on the plans for a school in Ethiopia and now they are volunteering their expertise to Diospi Suyana, and in Udo Klemenz we have best head of construction for the project.

Inauguration on 16 April 2012

The date for the inauguration of the Children's House has been set for 16 April. Work on the building is slowly reaching its final stages. We are rejoicing in the gift of all the tiles for the house from the Peruvian company Celima. Relius Coatings Inc. of Memmingen donated 3 huge containers of paint for the building as a Christmas gift worth € 18,000.

A Truck brings the donated tiles from Limas. ◀

Cancer Tests Save Lives

A long line of indigenous women waited outside a small store in Curahuasi. The reason was free gynecological cancer testing offered by Dr. Haßfeld and staff of the mission hospital in conjunction with the local medical post. Over 4 days the team were able to examine 550 women. The test included a cytological smear test (PAP) and colposcopy (microscopic cervical test).

▲ Massive rush for cancer testing

Tissue samples were taken if findings were suspicious in any way. Six tests came back positive and Dr. Haßfeld performed surgery on two, curing the patients.

Who Put the Puzzle Pieces Together? Was it God?

How Diospi Suyana got a surgeon in November and December. Sometime back in 2010 our Swiss friend Markus Rolli sent a copy of "Seeing God" to an acquaintance in Colombia. A certain Christian Kuhle read the book and passed it on to medical student Lukas Steffen, who was in Bogota visiting his Colombian girlfriend. The fascinating story of the hospital's beginnings

got right under his skin and it wasn't long before he sent us an email asking for an internship. Since he speaks excellent Spanish, we took him

on for November and December. Change of scene: On 28 September 2011 Dr. John gave a presentation about Diospi Suyana at Marburg University Clinic. In the audience sat Dr. Frank Schönbach. The surgeon could have come to Diospi Suyana as a short-term volunteer for two months, but he didn't speak Spanish. Two weeks ago Dr. Schönbach unpacked his bags in Curahuasi. A few days later Lukas Steffen arrived. Now we have

both excellent surgery and perfect Spanish - brilliant!!

Staff Reinforcements

The future head of administration at the hospital, Stefan Seiler, and his wife Tabea, a speech therapist, are currently in Spanish classes in preparation for their work. Daughter Olivia Renée is, of course, along with them.

Pediatrician Dr. Heike Lindacher is already serving at the hospital, filling a large gap.

General practitioner Birgit Bardy and physiotherapist Jörg Brady have completed their work at Diospi Suyana. Our heartfelt thanks go to the Bradys for four years' service.

Diospi Suyana on the Airwaves

▲ Dr. Martina John before her radio interview in Munich

On November 9 radiostation „Bayern 2“ broadcast a one hour interview with Dr. Martina John, which was transmitted throughout Bavaria and parts of

Baden-Württemberg. Directly before the missionary doctor, former President of Germany, Roman Herzog, had been a guest in the same studio. This marks the discovery of radio as a medium for Diospi Suyana. On 21 August Dr. Klaus John had given an interview for Hitradio Antenne, Radio Ton, Radio 7, and "New 107.7" in southern Germany.

An Open Word of Thanks

2011 will shortly be drawing to a close on the fourth year of operation at Diospi Suyana. The last few months were not easy ones with the lack of doctors. We are grateful for the 22 doctors who came from Germany, the USA and Singapore as short-term volunteers. It was your faithful support that made our service possible. Your giving, prayers and fund-raisers kept the hospital going.

We could fill a whole newsletter with all the great things friends all over the world do to raise money for the hospital. At this Christmastime and as the year draws to an end we wish you God's blessing.
